

Theia360™
HEALTHCARE, VISUALIZED

SEE YOUR NETWORK
FOR THE FIRST TIME™

The Largest, Most Current and Comprehensive Referral Dataset

- Prevent Referral Leakage
- Increase Revenue
- Access 4+ Billion Claims Records
- Updated Every 33 Days

Our cloud-based, patient referral management solution empowers hospitals with actionable analytics for a clear picture of what is happening in their network. Target patient leakage and identify referral trends to gain market insight and build physician loyalty. Reduce risks and optimize outcomes with an in-depth view of provider relationships and patient flow. Power your success with intelligent healthcare.

THEIA REVEALED

Inspired by the Greek goddess of sight and prophecy, Theia360 shares some of the same qualities as this radiant Titan. Her power, derived from vision, enabled her to shine light on the unknown making it known and instill gems with their brilliance and intrinsic value. Discover how our Theia360 solution can help you see your network in a new light.

Theia360 Features

Referral Tracking

Interact with physicians on a whole new level, making informed decisions about referral relationships and driving revenue growth strategies.

Market Map

Your whole market at a glance – determine your highest priorities for physician liaisons, compare physicians based on volume and measure pre- and post-acute care trends.

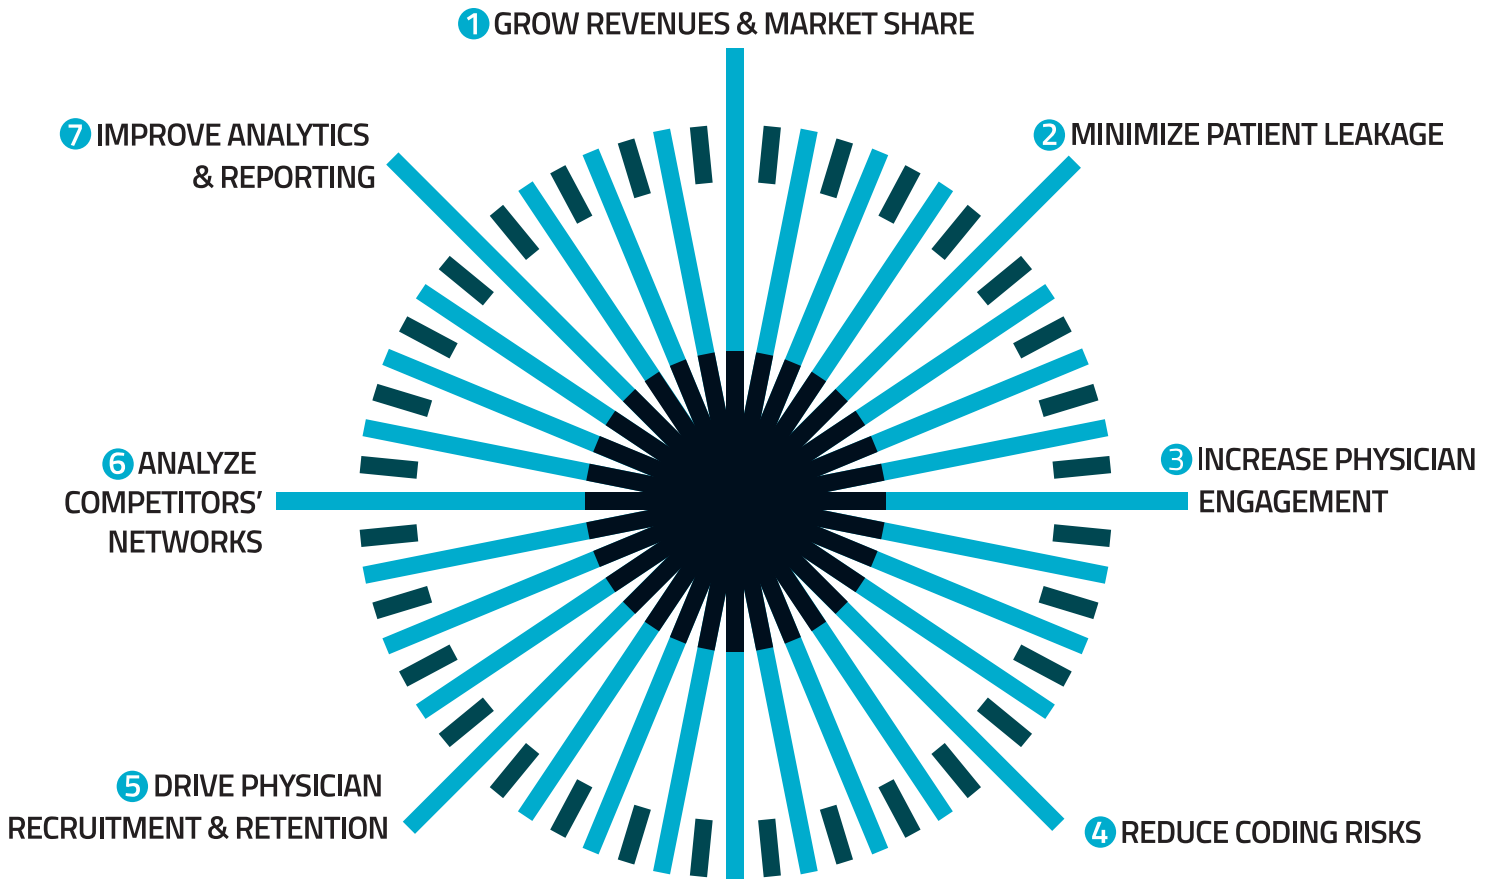

Geo Flow

Prioritize relationships, understand local markets, target geographic regions driving referral business, prevent leakage and validate facility decisions.

And much more! See your network for the first time – schedule a free demo today! theia360.com T 513.948.2087

HOW THEIA360 HELPS YOU

1 GROW REVENUES & MARKET SHARE

Get actionable analytics that will enable you to build a competitive network, increase patient volume, boost market share, and ensure continuity of care.

2 MINIMIZE PATIENT LEAKAGE

To maintain optimal financial performance, you need clear insight into how to combat patient leakage, analyze referral patterns, identify service line opportunities, reduce risk and achieve maximum business value.

3 INCREASE PHYSICIAN ENGAGEMENT

See your physician relationships in a whole new way. Gauge their impact, examine critical success factors and engage in meaningful conversations that build loyalty and drive performance.

4 REDUCE CODING RISKS

Discover physician and hospital discrepancies at a glance and investigate issues on a timely basis. Improve coding practices to enhance revenue, ensure regulatory compliance and minimize risks.

5 DRIVE PHYSICIAN RECRUITMENT & RETENTION

Reporting to see volume, number of visits for physicians even outside of network through Theia 360. Use Theia360 to identify physician and market expansion opportunities. HR and Physician Recruitment will be much easier if you know more about Physician's behavior than the physicians does.

6 ANALYZE COMPETITORS' NETWORKS

Get a clear picture of local market dynamics and the competition. Pinpoint geographic areas that drive referral business. Analyze data to validate your facility decisions and determine service line growth opportunities.

7 IMPROVE ANALYTICS & REPORTING

Produce standard and custom reports quickly and efficiently. Eliminate the need for hours spent compiling reports from disparate systems. Deliver analytics that are accurate and up-to-date for effective decision making.
